

Bodil Heebøll

University College, South Denmark.

Bodil Heebøll is a Lecturer at the kindergarten teacher Training Education UC South Denmark, and her main areas are pedagogy, didactics and the development of children.

Bodil was educated as a Kindergarten teacher in 1997 and has been working mostly with children between 3 and 6 years. She has had a focus on children and their development through working with art, telling tales and being outdoors.

She got her master's degree in pedagogy in 2013, where she among other things was absorbed by a critical view on evidence-based pedagogy. PALS which stands for Positive Behaviour in Learning and Interaction.
